About Prime Group

Prime Group is a leading manufacturer of premium-quality **brass energy meter components**, committed to delivering precision-engineered products that meet the highest standards of quality, durability, and reliability. With decades of industry experience, we have established ourselves as a trusted partner for customers seeking consistent performance and dependable manufacturing solutions. Every component we manufacture reflects our dedication to engineering excellence, customer satisfaction, and continuous improvement. Our focus on innovation, quality assurance, and precision manufacturing enables us to serve the evolving needs of the electrical and energy metering industry.

Our Journey

Established in **1995** by **Mr. Prakash Gori**, Prime Group began with a vision to become a trusted manufacturer of precision brass components for the energy metering industry.

Through consistent investment in technology, skilled manpower, and quality systems, the company has grown into one of the recognised manufacturers of brass energy meter parts in **Jamnagar, Gujarat**, India's brass manufacturing hub.

Today, the next generation of leadership is represented by **Mr. Meet Gori**, whose forward-thinking approach combines modern manufacturing practices with the company's core values of integrity, quality, and customer satisfaction.

Our Group Companies

Prime Group consists of four specialised manufacturing units working together to deliver world-class brass energy meter components.

- **Meet Industrial Components**
- **Prime Brass Components**
- **Prime Metal Industries**
- **Shiv Brass Foundry**

Each company contributes specialised expertise within the manufacturing process, enabling seamless production, stringent quality control, and timely delivery.

Our Vision

To become a globally recognised manufacturer of precision brass energy meter components by consistently delivering innovative, reliable, and high-quality products while building long-term partnerships with customers worldwide.

Our Mission

- To manufacture precision-engineered brass components that consistently exceed customer expectations.
- To maintain the highest standards of quality and reliability.
- To continuously improve manufacturing processes through innovation and technology.
- To foster lasting relationships built on trust, transparency, and customer satisfaction.
- To contribute to sustainable industrial growth through responsible manufacturing practices.

What We Manufacture

Prime Group specialises exclusively in the manufacturing of Brass Energy Meter Components, including precision-engineered parts designed to meet demanding industrial and electrical applications. Our products are manufactured with:

- **High dimensional accuracy**
- **Superior machining precision**
- **Excellent corrosion resistance**
- **Long operational life**
- **Reliable electrical performance**
- **Consistent product quality**

We also manufacture customised components according to customer drawings, specifications, and technical requirements.

Brass current Terminals for energy meters

Brass Sealing Screw

Screw and Fasteners

Manufacturing Excellence

Our manufacturing process is driven by advanced machinery, skilled professionals, and stringent quality control systems.

Our strengths include:

- **Precision machining**
- **Consistent dimensional accuracy**
- **Advanced inspection procedures**
- **Efficient production planning**
- **Continuous process improvement**
- **On-time delivery commitment**

Every product undergoes comprehensive quality inspection before dispatch to ensure complete customer satisfaction.

Why Choose Prime Group

Quality-First Manufacturing : Quality is embedded in every stage of our manufacturing process—from raw material selection to final inspection.

Industry-Focused Expertise : With decades of exclusive experience in brass energy meter components, we possess deep technical knowledge and specialised manufacturing capabilities.

Reliable Performance : Our components are designed to meet demanding electrical and environmental conditions while delivering dependable long-term performance.

Custom Manufacturing : We provide customised sizes, threads, finishes, and designs to meet specific customer applications and technical requirements.

Timely Delivery : Our efficient production planning and strong manufacturing infrastructure enable us to meet delivery commitments consistently.

Collaborative Partnership : We believe in building long-term relationships through transparency, trust, technical support, and responsive customer service

Our Core Values

Quality : Delivering products that consistently meet the highest industry standards.

Integrity : Conducting business with honesty, transparency, and ethical practices.

Innovation : Continuously improving processes, technology, and manufacturing capabilities.

Customer Focus : Understanding customer requirements and providing dependable solutions.

Commitment : Delivering excellence through dedication, responsibility, and continuous improvement.

Our Competitive Advantages

- Established in 1995
- Decades of specialised industry experience
- Dedicated focus on brass energy meter components
- Modern manufacturing infrastructure
- Skilled technical workforce
- Customised manufacturing solutions
- Strict quality assurance procedures
- Competitive pricing
- Reliable on-time delivery
- Long-term customer partnerships

Quality Commitment

Quality is not just a process—it is our commitment.

Every component manufactured by Prime Group is produced under stringent quality control procedures to ensure: • **Precision dimensions** • **Superior finish** • **Consistent performance** • **Product reliability** • **Customer satisfaction**

Our quality philosophy enables us to build lasting confidence with customers across the energy metering industry.

Our Commitment

At Prime Group, precision is more than a manufacturing standard—it is the foundation of everything we do.

By combining experience, advanced manufacturing, skilled craftsmanship, and customer-focused service, we continue to deliver brass energy meter components that customers can trust for performance, quality, and reliability.
